

GlobalIntegral e-publisher 7.0, leader in the contemporary world and participant in globalization, is an international multilingual online digital platform Catholic-focused and specialized in the Digital Transition of the Church, AI Catholic and News Hub that explores the intersection of the spherical, integral and global movement of the New Evangelization for the IIIrd millennium, synodality, e-culture and AI.

The platform provides updates on the Catholic Church to a global audience incorporating worldwide outreach with digital culture.

The New Evangelization involving a synodal experience which integrates the evolving mission of the interculturality of the digital environment and sphere, GlobalIntegral serves as a global portal related to digital transition of the Church, focusing on spreading the Good News of the Gospel through contemporary means, specifically targeting the digital world.

It is about moving from the stage of development, vision, scenario to the implementation in reality of interactive and connected digital tools; this digitalization of the Church makes it possible to improve, in any dedicated space, the digital experience associated with faith and to value all cultures, all contexts and all legitimate diversities.

Given that the digital world is subject to cultural influences, disciples-missionaries must always deploy an AI which defends human dignity, the fullness of the vocation of any human person and which promotes integral human development and the common good in the context of globalized society and the digital continent.

As a result, digital transformation of the Church requires a creative and flexible missionary approach which leads to the implementation of new integral faith experiences and which addresses the obsolescence and incessant ruptures produced by continuous and rapid technological evolution and innovations by generating digital content adapted to the complexity of the contextual, cultural and existential spheres of the world.

To nourish integral continuing education GlobalIntegral strengthens the mission of the Church's online presence in the digital age to share the faith.

The platform supports digital missionaries with their digital tools, networks and global initiatives that use technology in online spaces.

GlobalIntegral provides digital resources and information and offers worldwide services.

GlobalIntegral is moving towards the emergence of new, unexplored missionary horizons to reach all human poverty with a preferential option for vulnerable people and the integral promotion of the human person with their vocation to transcendence.

In announcing the Social Doctrine of the Church and the communion and the unity of the Catholic Church, GlobalIntegral focused on themes of e-evangelization, contextual inculturation, spirit of missionary synodality, integral spiritual theology and anthropology, human rights of all, defense of human life, planetary fraternity and solidarity, integral ecology and safeguarding of creation, civilization of love and inheritance of eternal life in the Kingdom of Heaven.
